HY Electronic (Cayman) Limited

650V , $R_{DS(ON)} = 78m\Omega(max)$, $I_D = 39A$ N-Channel SiC power MOSFET

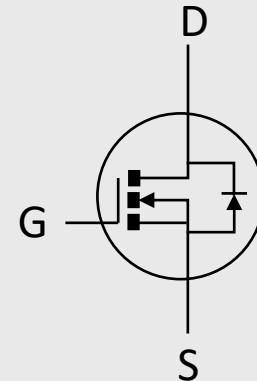

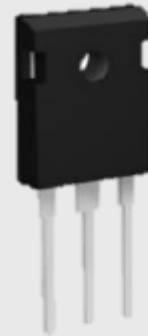

Features:

- Easy to parallel
- Fast switching speed
- Fast reverse recovery
- Low on-resistance
- Pb-free lead plating ; RoHS compliant
- Simple to drive

Applications:

- DC/DC converters
- Induction heating
- Motor drives
- Solar inverters
- Switch mode power supplies
